The Franklin Report: *Guide to Local Services*

Los Angeles

THE FRANKLIN REPORTSM
The Insider's Guide to Home Services

Flipping through the latest Domino, we noticed a service we'd never heard of before and it came straight from Kelly Wearstler's mouth, so you know we were listening. It's called The Franklin Report and it's a local guide to services like **painters, plumbers and reupholsterers**.

From flooring to furniture repair to housekeeping, window washing and pest control, **the Franklin Report** is seeking to be your go-to Guide for great recommendations to quality home services in LA. (They also provide an index of services for New York, Chicago, Connecticut and Florida.) We've never used Angles List, but we get the feeling it's a similar service, though with an eye towards higher end services and design. Have you used the Franklin Report?
