Flower Construction

Company Philosophy

At Flower Construction, our mission is to deliver distinguished homes of all sizes with the best technical, structural and finished quality construction and to establish a relationship that continues for as long as the client owns their home. Our dedicated team focuses on one project at a time to consistently deliver the highest quality workmanship.

Areas of Expertise/Recent Projects

Flower Construction specializes in complex projects that require strong management and technical expertise. Our team is comprised of skilled artisans, engineers and technical experts who seamlessly work together to create new construction, renovations and restoration projects of enduring value. We are certified in LEEDs construction.
