

Hanover Builders, Inc.

Company Philosophy

Hanover Builders, Inc. has been building high quality custom residences in the Southern California area for more than twenty-five years. Our reputation is unsurpassed for craftsmanship, attention to detail and technical ability. The amenities, which add value and distinction to custom homes and estates, are always included in a Hanover Builders, Inc. home. Our commitment is to provide the absolute finest in residential construction and project management for our clients. Hanover Builders, Inc. maintains a complete staff: including highly skilled construction superintendents, framing crews, laborers, and office support staff. This assures an efficient, well-run project from inception and planning through completion and move-in.

Areas of Expertise/Recent Projects

Recent projects: We recently completed an exquisite French Normandy style vacation home in Montecito nestled amongst the giant oaks. There are 3 structures, the main house, hobby house, and recreation/garage building. Unique outdoor features include a full cobblestone driveway, Santa Barbara sandstone walls, an outdoor creek water feature, bridge, gazebo, and landscaping throughout. Indoor features include a custom 8' wide spa with imported Italian hand-cut glass tiles surrounded by French windows, and an Italian mosaic wall fountain. The kitchen and living room have Patina antique oak wood flooring and beams imported from France. Other recent projects include new home construction in Pacific Palisades, Santa Monica & Calabasas as well as vast renovation projects in Santa Barbara, Montecito, Rincon Point, Santa Monica & Beverly Hills.
