## Company Philosophy

Since 1985, Bilotta has been a leader in the custom cabinet industry. Founded by Jim Bilotta, Sr., the company remains family-owned by siblings Jim, Maria and Regina Bilotta. Renowned for exquisite product, unrivaled service and superior craftsmanship, the firm has proven itself unparalleled in the business. Thousands of Bilotta kitchens, bathrooms, and other living spaces can be found in individual homes as well as in multi-unit residential developments around the world, both urban and suburban. Bilotta's most recent multi-unit developments include Watermark Pointe in New Rochelle, NY and 220 Central Park South in Manhattan.<br><br> Three New York showrooms located in Mamaroneck, Manhattan and Mount Kisco showcase traditional to contemporary kitchen displays from numerous manufacturers as well as the company's own line, the Bilotta Collection. Bilotta's partner factory is located in rural Pennsylvania, America's heart of hand-made cabinetry and furniture production. Selected by the American Amish in the early 1900s, the area, rich in hardwood forests, continues to nurture generations of cabinet makers to this day. It is talent and pride of craftsmanship honed over 100 years which forms the strong foundation of Bilotta's fine cabinetry. While the factory relies on its longstanding talents, its production employs cutting edge technology, machinery, materials, and finishes. All Bilotta products are backed with warranties which confirm their quality and reputation.<br><br> Full design and engineering services are available from Bilotta's award-winning design team. Their talent, passion, and innovation are reflected in the spaces they create.</p>
