

Sheridan & Grondahl

Company Philosophy

We are a small team of hands-on craftsmen who love the work we do, and take pride in creating beautiful spaces for our clients. We are at the job site every day, personally ensuring that the homeowner's investment will bring lasting satisfaction.

Our primary concern is the quality of the finished product. To that end, we invest in superior preparation of all surfaces. We guarantee that the work we do will hold up beautifully for years, and we care for your home as we would our own.

Areas of Expertise/Recent Projects

We do quality interior renovations in Manhattan and Riverdale.

In addition to premium skim-coating and attentive painting, as part of a larger job, we also:

- Replace or add trim, including crown moulding and baseboards.
- Build bookcases, closets, home offices, and more.
- Add or remove doors, doorways, or walls.
- Get doors to close properly, including pocket doors.
- Change or add light fixtures, switches and outlets.
- Bury phone, cable or speaker wire in the walls. We even hang mirrors, artwork and window treatments when the job is finished!
