Charlotte Barnes Interior Design

Company Philosophy

Known for delivering a look that is carefully curated but never stuffy, Charlotte Barnes has worked closely with clients for almost two decades to create livable homes that exude casual elegance in the US and abroad. Barnes' aesthetic is grounded in a stylistic mélange of luxurious materials, fine antiques, attention to detail and measured restraint. One of her signatures is to place an unexpected and memorable feature in each room, giving completed projects a spontaneous and personalized feel.

Roundly regarded among the best in her class, Barnes' strengths lie in her versatility, professionalism, and ability to form long-standing and rewarding relationships with clients. She began her interior design firm in 1993 after returning stateside from London, where she helped to expand Ralph Lauren in Europe. Once her own home was featured in British House & Garden, the calls for her design advice never ceased.

The Charlotte Barnes design office takes on about eight projects at one time, all with full budgets and all given utmost care and attention. Smaller, single-room projects are also welcome. A standard design fee is taken at the outset of a project, along with reasonable markups on purchases. Recent projects include two young family apartments on Park Ave., a family camp in the Adirondacks, a Florida bungalow, a Greenwich townhouse, and various primary and secondary residences in Westchester and Fairfield Counties.

On each project, product and budget are carefully considered. Barnes has spent her career cultivating vendor relationships, visiting auctions and working closely with antiques dealers to bring her clients the highest quality within their means. Barnes' extensive industry experience has made her a trusted name in comfortable and refined living that clients return to again and again. By taking her client's individual tastes and lifestyles into consideration, Charlotte consistently delivers a tailored fusion of contemporary pieces and traditional antiques that is a bit modern without sacrificing longevity.
