New York Drapery Care

Company Philosophy

New York Drapery Care Corp. is a specialty workroom whose only focus is the hand cleaning of finer residential window treatments. The firm was founded in 2004 with the mission of offering high-end residential clients with a resource where they can confidently have their fabric window treatments cleaned and maintained. Chuck Strausser, owner and founder, supervises each job and is onsite for each estimate, pickup and return.

By offering a very personalized service, New York Drapery Care has developed strong bonds with the interior design community and its allied trades. Its services are offered through top interior designers, high end general contractors, drapery workrooms, as well as directly to the public. The firm is also recommended by quality retailers and directly by Hunter Douglas for their entire line of fabric blinds.

Areas of Expertise/Recent Projects

New York Drapery Care effectively eliminates the fear of fabric shrinkage or damage to even the most fragile fabrics. By combining hand cleaning techniques with environmentally friendly solvents manufactured by GreenEarth Cleaning we are confident that your fabric window treatments will be cleaned safely and returned just as promised.

We understand that the high end residential client has specific needs and have structured our service accordingly. Often we are called in as part of a larger job and understand the importance of working in conjunction with other contractors. Be it a one room paint job, or a major remodeling, it is always better to have New York Drapery Care come and remove the treatments before the other contractors start their work. The treatments, once cleaned, will be kept at our facility until your space has been readied for our return.
