## Company Philosophy

We produce furniture pieces with our clients comfort in mind. The construction of our hardwood frames, springing and upholstering methods are time tested. This creates a unique style and feel. Although our manufacturing process has changed very little over the years there have been many improvements in upholstery findings and we do keep up with the new products as they become available. Everybody sits in furniture differently and we strive to create the ideal piece for each of our clients.

## Areas of Expertise/Recent Projects

•Traditional and Contemporary Furniture •Chairs •Chaises •Daybeds •Sofas •Turnabouts •Ottomans •Beds •Bedding •Pillows •Tables •Slipcovers and more…
