Company Philosophy

Be brutally honest. In an industry where it seems that everyone makes empty promises just to secure a job, i'd rather walk away if I don't have a comfortable and transparent understanding with my client on schedule, budgets, and expectations.

Areas of Expertise/Recent Projects

A full gut, design & re-build of a four bedroom, three & a half bathroom of a private residence on the Upper East Side.

A full gut, design, & re-build of a Tribeca Residence within a landmarked building.

A renovation of a Park Avenue lobby on the Upper East Side working with the board committee & design firm.
