

## Auer's Moving & Rigging

### Company Philosophy

Providing precision move consulting, master rigging, fine arts handling, transportation, museum quality storage, and full service analytical and logistical solutions, with passion, precision and innovation.

### Areas of Expertise/Recent Projects

Services & Specialties: Rigging, Hoisting, Moving, Storage, Art Handling, Precision Move Consulting  
Auer's Moving and Rigging is one of the oldest and most respected high-end commercial, residential and fine arts precision rigging and moving companies in New York. We have been empowering builders, designers, architects, contractors, museums, collectors, corporations and visionaries in the completion of innovative, unique and challenging projects for more than 90 years, providing:

- Full service logistical solutions
- Precision move consulting
- Master rigging and hoisting services
- Fine arts and precious materials handling
- Short and long term museum quality storage
- Transportation services

Our passion for precision, preservation, and progress and our commitment to approaching every project with a curator's eye, has allowed us to effectively support and help make possible some of NY's most prestigious and challenging design projects. Our vast experience affords us the opportunity to provide the essential expertise and equipment needed throughout every step of the process and work collaboratively with architects, designers and suppliers as is appropriate, to ensure that every project is completed on spec and on time, maximizing resources and minimizing delays.
