Company Philosophy

P&T interiors - a boutique interior design firm - provides highly personalized residential design services to what has become an international client base. We work to bridge the gap between a project's full potential and the boundaries imposed by the realities of life and believe that a great design is the culmination of a tri-party relationship between a designer, a client and the space. Our role in this relationship is to translate the client's taste and lifestyle into their space while developing and maintaining a conceptual thread to ensure that the space reaches its highest potential. Every interior is as unique as the client for whom it is designed. P&T Interiors' small staff of dedicated designers and architects focuses all their attention on each and every project to ensure that even your highest expectations are exceeded. - Pol Theis
