Fabra-Cleen Stone & Tile

Company Philosophy

Since 1949 we've been serving residential and commercial clients throughout the tri-state area (NY, NJ, CT). Extensive training, high-quality cleaning solutions, and advanced equipment have all been contributing factors to our excellent craftsmanship, but our ongoing commitment to not being satisfied until you are is how we've become a highly regarded fine surface cleaning and restoration company.

Areas of Expertise/Recent Projects

The natural stone technicians at Fabra-Cleen have all been thoroughly educated and extensively trained in cleaning, repair, restoration, and maintenance of all natural stone surfaces. Why does this matter to you? Many general cleaning and carpet cleaning companies have recognized the need to add natural stone care to their list of services. However, few of them have completed the necessary formal training. As a result, a significant number of our clients first contacted us after receiving unsatisfactory results with lesser-qualified companies.
