Areas of Expertise/Recent Projects

New York, NY Dueling Pianos started in NYC in 2012. Within a couple years we were getting invited over the U.S. At first we would fly our New York performers in and rent equipment locally. As we grew, we invested in full traveling shows, complete with pianos, sound and lighting, based in major cities in Texas, California, the Midwest and Florida. We carefully added to our performer roster, until we developed the very best dueling piano talent anywhere. Even as our corporate offices remain in NYC, we are proud to play for audiences all throughout North America.
