Company Philosophy

Our belief is that there is no replacement for honesty, hands-on management & open communication. With a large in-house crew we self perform much of our work, allowing for more control & a better outcome. Big enough to tackle large projects yet small enough to care about every last detail.</p>
A home is an embodiment of how we want to live, an expression of our aesthetics, and our unique needs for functionality, enjoyment, and convenience. At THIS the goal is to bring the client's vision to life while ensuring a smooth process throughout. With our exclusive focus & expertise in the high-end New York City market, skilled tradespeople, and dedicated staff we continue to satisfy our clients & get the job done, time & time again.</p>

Areas of Expertise/Recent Projects

Our work spans the city’s most distinctive and high profile buildings. We are a full-service boutique firm.
From full gut renovations to specialty finishes & everything in-between THIS provides an inimitable standard of excellence.
Recently completed projects include model unit buildouts in Central Park tower - the tallest & most exceptional residential building in the Western Hemisphere.</p>
