Ferguson & Shamamian Architects, LLP

Company Philosophy

Founded in 1988, Ferguson & Shamamian Architects are versed in the eclectic language of residential interiors and committed to the art of harmonizing the old with the new, offering a new vision of traditional American architecture adapted to the needs of modern life. Every project respects the cultural, historical and physical identity of the places in which they are built. Their portfolio of city apartments, suburban houses, and country estates, expresses a deep appreciation for historical styles, regional character, and the personal taste of their clients.

Areas of Expertise/Recent Projects

Collaboration has always been a keystone of our work. We begin every project in partnership with our clients; interpreting their individual needs and dreams, and allowing their character and lifestyle to inform the greater architectural idea. The work is bolstered by our strong commitment to artistic integrity and a focus on detail, the best use of materials, and exceptional workmanship. Our holistic vision of design has led to longstanding relationships with many of the country's top decorators, landscape architects, artisans, and builders. Recent projects include a new oceanfront estate in East Hampton, a mountain retreat in Aspen, the renovation of a storied Park Avenue duplex, a new family compound in coastal Maine, and the renovation of a landmarked house and outbuildings in Palm Beach, among others.
