Lillian Heard Studio

Company Philosophy

Lillian Heard Studio creates beautifully rendered artisan plasters, elegant and atmospheric murals, and sensitively executed stencils, painted floors and gilding for architects, interior designers and contractors. Founded in 1991, the Studio marries a finely tuned artistic sensibility with consummate professionalism and a deep knowledge of materials, techniques and color theory.

Areas of Expertise/Recent Projects

“We love to create exceptionally beautiful surfaces, and are able to do so even in tricky situations, often exceeding client expectations.
“We recently matched the aging limewashed brick exterior of an original structure built in 1929 to its new 4000 square foot addition so precisely that both the client and the architect could barely discern where one ended and the other began. Later that week, without missing a beat, we switched from the limewash exterior to the execution of an exquisitely rendered chinoiserie and the patent gilding of a silver leaf ceiling.”
