Orsini Design Associates

Company Philosophy

Our operating philosophy is based on the seamless integration of architecture and interior design, both aesthetically and operationally. Integrating a respect for the past and a view to the future, our disciplined approach distinguishes us from others in the field. Success is based on creating design solutions which are luxurious as well as comfortable, and most importantly, are reflective of the desires and goals of our clients.

Areas of Expertise/Recent Projects

Orsini Design Associates, Inc.™ is a New York based Interior Design firm specializing in the design of private residences, resort properties, corporate office facilities, high-end retail stores, private yachts and aircraft.

Recently completed design projects include 9,000+ square foot residences in Southampton NY and Greenwich CT, a 4000 sf residence in Bel Air, as well as several residential renovations in New York City.

The Southampton project included a custom wood paneled dining room, dine-in wine room, spa and sauna. The Greenwich CT project included several structures for which ODA designed, specified and detailed all elements within the residential envelope.

We are currently designing the interior of a duplex penthouse in a period Art Deco building in Los Angeles, a brownstone in Brooklyn, NY, a new residence within a family compound in Virginia, and updating a high end retail facility in New York City.
