

Milly de Cabrol Ltd

Company Philosophy

Most of all, I listen to my clients and make their dreams come true. I value variety and never provide the same client with the same look. Everybody is different. I prefer to concentrate on individual projects and, for that reason, I feel that I have a real personal connection with my clients and give them total individual attention-almost like a personal shopper.

Areas of Expertise/Recent Projects

The following are some eclectic examples of some recent work: a Fifth Avenue apartment of an advertising tycoon, in addition to his country home in the Hamptons, which reflects a Palm Beach, yet Nantucket feeling; a young Manhattan woman's two-bedroom apartment in neutral tones, with a Zen-like feeling; a loft-like Central Park West, high-ceilinged apartment that gives you the sense of an Italian palazzo with Venetian plaster on the walls, Fortuny fabrics, and antique marble floors; and a downtown townhouse that encompasses a grand, English look, emphasizing rare hand-blocked fabrics, oversized sofas, and a Swedish, pale blue, dining room, a tobacco-brown library, and a deep-green country kitchen.
