

Juan Montoya Design

Company Philosophy

Juan Montoya is highly respected by clients and peers for his exquisite juxtaposition of cultures and periods, dramatic yet restrained taste and exceptional good manners. His contemporary design work is seen by past clients as sleek and eclectic, often merging bold South American and Asian elements into a neutral palette. More recently he has developed a neoclassical design sensibility that integrates exquisite fabrics, fine antiques and rich colors. Clients applaud his ability to offer sophistication to any design construct, be it idealized Ski Lodge or an Art and Crafts yacht. A detailed 380-page monologue of his work was published in 1998.
