Godwin Inc.

Company Philosophy

The team of professionals at Godwin have extensive experience and a deep knowledge of the products, services and high quality demanded by our clients. Our "hands-on" approach to managing each project as if it were our only project offers maximum value through superior quality assurance. We value our reputation and strive each day to successfully meet challenges and reach client goals. We are, most importantly, committed to providing excellence on every level. We consistently strive to complete projects on time or ahead of schedule to routinely meet client target dates.

Areas of Expertise/Recent Projects

Godwin Residential Construction has completed hundreds of high-end residential projects since its founding in 1982. Most recently, we completely restored a majestic townhouse on West 87th street, completed fantastic gut renovations with extensive woodworking at the prestigious 923 Fifth Avenue as well as on Park Avenue, to name a few. Our staff of highly qualified in-house project managers and site superintendents allows us to manage and consult on all facets of a custom residential renovation project. These relationships allow Godwin to compete on the highest level to achieve unparalleled results. We provide the level of expertise needed to complete the types of projects our discerning clientele demand yet keep within the cost requirements our clients need. In addition, our extensive, privately owned 6000 square foot state of the art millwork, cabinetry and furniture shop is a stones throw from our offices in Manhattan. Housed in the historic Neumann Leathers building, an old tannery and the last 19th century commercial building in Hoboken, New Jersey. Our shop is solely dedicated to providing custom millwork and cabinetry that meets our customers' precise specifications.
