Company Philosophy

To describe the broad range of Jeffery Thrasher's stylistic tendencies, Interior Design Magazine states he works "in an easy, modern vein - but sometimes the Kentucky native's instincts tug him in the opposite direction." Regardless of the style or period, the designer is a purist, which is why his repertoire is so expansive.

Areas of Expertise/Recent Projects

Thrasher's projects have garnered him regional and national press, including HGTV's "Small Spaces, Big Style," Interior Design Magazine (Cover Story August 2005, Featured Story 2003), Domino Magazine, ICONS: Miami Style (Taschen), Miami Interiors (Taschen), Inspired High-End Interior Design (Schiffer), Florida International Magazine, and Florida Inside Out.
