Austin Patterson Disston Architects

Company Philosophy

The firm is a full-service architectural and planning firm with offices in Southport, CT, and Quogue, NY focusing on bespoke projects, residential, hospitality, and private clubs. “We feel confident doing a broad spectrum of styles and types: renovations, restorations, additions, apartments, and new residences,” notes partner McKee Patterson, AIA. The firm brings to each project a thorough knowledge and understanding of architectural precedent and fresh design. “I would not say that the firm has a particular ‘cookie-cutter’ style,” explains partner Stuart Disston, AIA. “I can tell you what others have said: our work has an intimate scale — our larger residences do not seem imposing, our interiors work well together and are exceptionally tailored in their material detail.”
