

Kerry Joyce Associates Inc.

Company Philosophy

Kerry Joyce works in a broad range of styles, from traditional to modern, deftly creating elegant and sophisticated interiors that reflect the personalities and lifestyles of his clients. His ability, within his own firm, to design both the architecture and the interiors allows him to showcase his talent for integrating architecture with design and decoration, creating a seamless environment down to the smallest details. The result is an interior that is transportive, timeless and inspired. Joyce won an Emmy Award for set decoration, was selected twice as "Design 100" by Metropolitan Home and called a "Top 100 American Designer" eight years in a row by House Beautiful.

Areas of Expertise/Recent Projects

Some of Joyce's projects include designing modern interiors for a Ricardo Legorreta house in Bel-Air, an Aspen Ski Lodge, and a Montecito hilltop residence with panoramic views of the Pacific Ocean. In addition, Joyce remodeled a 1930's Southampton beach house for hotelier Ian Schrager and remodeled Andy Warhol's former townhouse in Manhattan for media magnate Tom Freston. He completed an English-Hawaiian style Malibu beach house for actress Jami Gertz and did the interior design and architecture for the residence of Greg Penske of Penske Motor Sports. His current project is designing the interiors of a wonderfully chic residence at the landmark Plaza Hotel in New York City. His interior design work and furniture design have been featured in numerous publications including Architectural Digest, Elle Decor, House Beautiful, Metropolitan Home, Town and Country, W Magazine and World of Interiors.
