

Craig Allan Higgins

Company Philosophy

My design philosophy revolves and resonates around the client's needs and aesthetic aspirations for their project. I do not impose my personal style on the client, rather I facilitate, execute, and expedite the client's vision for their particular project. I work comfortably in all design and decoration styles from Ultra Contemporary, Mid-Century Modern, Transitional to Traditional and, Historical Restoration and Preservation. I bring a wealth of experience and education to each project with extensive knowledge of the history of design and decoration, architecture and construction, and expertise in Fine Arts and Antiques.

Areas of Expertise/Recent Projects

A 35,000 square foot Beaux Arts Estate in Beverly Hills, a 25,000 square foot Ultra Contemporary project in Newport Beach, and a Mid Century Modern Cliff May house in Brentwood.
